الإهداء

إِلَيْكَ
إِلَيَّ ، إِلَيْنَا .
إِلَى وَالِدِينَا .
إِلَى كُلِّ مَنْ كَانَ فِينَا
وَغَابْ .
إِلَى مَنْ تَوَارَى عَلَيْنَا ،
سَقَاهُ الرَّحِيمُ ،
فَنَامَ
وَطَابْ .

ANNEXE

Préambule :

Vu mon attachement et ma croyance au livre sacré écrit en arabe et vu mon intérêt à cette langue qui emprisonne et enchante ses étudiants et chercheurs par sa richesse au niveau des mots et des phrases tissées et cheminées d'une rhétorique sans égal, j'ai choisis la sourate "les Fourmis"qui comprend entre ses versets une pensée langagière et une analyse stylistique extrêmement profonde. J'ai titré mon exposé : "Les caractéristiques narratives dans le Coran de la sourate de "les Fourmis ". J'ai commencé tout d'abord par l'analyse du discours narratif dans le Coran et j'ai choisis cette sourate comme exemple d'étude.
Elle contient 93 versets parmi les sourates les moins longues et qui débute par deux lettres alphabétiques comme elle contient aussi un discours contant cinq histoires des prophètes qui ont précédés.
Elle comprend aussi les principes de la monothéisme, de la résurrection, comme les autres sourates mecquoises. C'est la 27 ème après sourate la délibération et précédée de sourate le récit .Ces trois sourates qui se succèdent, se ressemblent dans le conseil et l'exemple.
Le Coran a nommé quelques sourates de plusieurs noms d'animaux tels; la vache, l'araignée, l'éléphant, les fourmis nommées ainsi parce que Dieu a cité sa parole lorsque passa SALAMON et ses cavaliers par 'Oued les fourmis" et l'entendit et comprit ce qu'elle voulût ce qui justifie que les animaux se communiquent et que Dieu a donné le langage a ses espèces.
Cette sourate est divisée en onze parties (l'introduction, neuf paragraphes et une conclusion). Ces paragraphes sont coordonnés d'une manière à ne pas les comprendre que par une étude stylistique, surtout elle a un discours et une narration qui ont joué un rôle primordial à des niveaux différents dans chaque chapitre.

Chapitre N°1 : Rôle du terme dans la sonorité et la description.
Chapitre N°2 : L'interrogation et la déclaration.
Chapitre N°3 : la condition et la coordination.
Chapitre N°4 : la description.
Chapitre N°5 : Sémantique et relation.

Chapitre N°1 :

Rôle du terme dans la sonorité et les figures descriptives. J'ai entamé dans ce chapitre le rôle du mot et ce qu'il porte de signification entre les éléments du style (l'Image acoustique), la sonorité et la redondance.

Chapitre N°2 : l'interrogation et la déclaration :

Ce chapitre a pour objet la définition de la polysémie et je me suis basé sur le style interrogatif à cause de sa redondance 33 fois dans 27 versets et qui se divise en : négative, exclamative, déclarative, proscription, raillerie, sans oublier le coté sémiotique et les différentes visions des linguistes.

Chapitre N° 3 : Grammaire : la phrase de la condition et de la coordination

Ce chapitre qui révèle les efforts des linguistes dans la parole , la phrase, avant et actuellement et j'ai traité la structure syntaxique dans la phrase :
La conditions : 18 phrases.
Les phrases coordonnées : 41 fois
Sans étudier la phrase interrogative qui déjà a été étudiée.

Chapitre N° 4 : La métaphore

L'Image acoustique du style coranique est pour éclairer le sens et la personnification se trouve dans le Coran sous 33 formes dans le 1/3 des versets de la sourate et j'ai essayé d'étudier d'une façon artistique contemporaine cette image des mondes des différentes créatures est la victoire de la vérité. Cette image comporte des brèches permettant au lecteur de planer avec son imagination dans la vérité et en le foudroyant par ses étonnantes surprises, en plus des images naturelles et psychologiques.

Chapitre N° 5 : La sémantique et la relation entre les thèmes.

La science de la croyance demande une étude sur les deux axes, syntagmatique (grammaire) et paradigmatique (sens).
En divisant le mot en nom, verbe, adjectif, le signifié, le signifiant.
Il est difficile d'étudier le texte coranique sur toutes les phrases parce que le thème n'est pas constant , ce qui est beau dans le langage coranique tout est lié à tout malgré la diversité des thèmes des pour donner un seul thème final qui est la foi

Les difficultés :

Il est difficile de faire un exposé avec un manque de livres qui traitent l'étude stylistique et ce qui a entravé de plus la démarche de ma recherche la situation sociale et psychique. Mais j'ai trouvé dans la sourate des fourmis un très grand attachement au style et à la narration pour arriver à achever mon travail.

Remerciement:

Je remercie infiniment Monsieur DJEMAI Lakhdar qui m'a orienté et m'a aussi aidé à faire cet exposé, ainsi les professeurs de l'université d'Alger et ceux de l'institut des lettres de Batna, surtout Dr Kamel ADJALLI, ROUINA Abdellah, Ahmed ACHOUR, ATTAOUA Abdelkarim, mon cousin Aissa DJEMAI qui a mis tout à ma disposition et finalement à mon père qui m'a enseigné la langue du coran, sans oublier ma mère qui m'a bien éduquée que Dieu la protège.

Conclusion :

Avec une rhétorique extraordinaire le Coran a défié les êtres humains et même les satans avec 114 sourates dont 1/5 étaient mecquoises. Sourate des fourmis est l'une de ces sourates d'une longueur moyenne avec un style narratif insérant la foi. Elle fut nommée ainsi pour démontrer ce que ses insectes se communiquent dans leur royaume.
Ce texte coranique se divise en 11 parties (Introduction, 09 thèmes ou sujets et une conclusion dont la plus longue est composée de 29 versets.

Les thèmes (sujets) sont liés d'une structure linguistique qui correspond à une structure générale pour arriver au but envisagé.

Parmi les moyens pour comprendre la sourate, l'analyse du style.
La rhétorique est une matière scientifique pour la perception du langage. Parmi les éléments de la rhétorique, l'étude du sens qui est l'objet de la sémiologie. Deux figures complétives d'une part, un côté animé dans le processus de la narration, d'autre part, le côté stable qui est la foi.
La redondance de l'interrogations dans la narration et ses plusieurs fonctions par exemple la négation pour l'affirmation, pour inviter les non croyant du Dieu de la Mecque à le prier seul,et l'exclamation pour expliquer à celui qui s'interroge sur la cause.
Les précurseurs se sont intéressés de la métaphore, manière de s'exprimer et ont pris l'exemple du Coran. La métaphore dans "les fourmis" est pour rapprocher le sens et la personnification en vue de donner vie au texte.
Nous trouvons dans cette sourate la métaphore dans sa globalité qui mène le lecteur à imaginer les séquences et leur déroulement d'une intrigue surprenante.
D'une imagination à une réflexion. L'analyse du style demande une très grande connaissance des termes et leur différents sens. Le mot n'a de sens qu'associé avec un autre.
Tous les mots sont utilisables, compatibles au style narratif.
Les mots sont utilisés aussi pour insinuer une idée. La comparaison employant le futur pour le renouvellement. Tous les figures du style sont utilisés pour donner force au style avec l'emploi de la rime avec deux lettre (m / n) défiant les poètes de cette époque qui utilisent généralement ces deux lettres comme rime. La ponctuation pour marquer les pauses (la sonorité aussi).
La répétition de certaines expressions pour les mémorisées et par souci d'oublie.

Ce projet de recherche a été maintes fois refait, corrigé, reformulé de peur de mon Seigneur tout puissant. Avec l'encouragement sans limite du professeur encadreur je l'ai achevé dans une région déshéritée qui manque des livres de références et surtout ceux spécialisés de l'étude stylistique. Je me suis basé sur des anciens et des contemporains livres dans ce domaine.

J'ai trouvé dans sourate "les fourmis" un goût stylique et une distraction narrative qui a dissipé mes soucis et m'a invité à être patient et à se confier à Dieu :

"Confie-toi à Dieu.
Tu es certainement dans la claire vérité."

(Verset n°:79"Les fourmis"

Enfin, je remercie particulièrement mon honorable professeur Docteur DJEMAI Lakhdar pour ses conseils, sa grande patience et tous ceux qui ont participé à mettre à jour ce modeste projet de recherche dans l but de revaloriser la langue arabe.
